

Come and join us for an

IMAC PRIMER

June 28, 2009

The day will consist of ~4 hours of sit down instruction followed by ~4 hours of actual demonstration, flying and coaching. Topics that will be covered include:

- What is IMAC and Scale Aerobatic Competition?
- Setting up an aircraft for precision aerobatics
- Aircraft requirements for IMAC (Scale Aerobatics Competition)
- Maneuver by maneuver break down of the current Basic Class sequence
- Judging / Scoring criteria for the Basic sequence
- How to read Aresti (International standard for depicting aerobatic maneuvers in graphical form)
- What to expect during your first IMAC competition
- How to practice / prepare
- Actual demonstration of the Basic sequence and typical problems
- Help with trimming and mixing your plane
- And for those that wish to give it a try: In flight coaching, teaching of the Basic sequence, getting you ready to participate in an IMAC competition

Primer starts at 9 AM @ Pegasus Field

Old Forge Rd., Hagerstown, MD
